

Gaia
Electric Stretcher

areequipment.com

Gaia - Get lazy

The Gaia electric stretcher makes loading and unloading a patient one of the easiest jobs.

- Battery-powered hydraulic lift system
- The material is high-strength aluminum alloy which is hardened and surface powder coated.
- The length of the stretcher can be adjusted to fit in a narrow place and elevator
- Equipped with four wheels and two of them with brakes
- PVC materials mattress
- Three point belt kit
- Equipped with Three-staged IV stand
- Power voltage is 36V, rechargeable BOSCH lithium battery.
- With manual pressure relief function which can lift and down manually when the battery power is not enough.

Height Warranty

Highest Position 120CM

Lowest Position 50CM

Length

Standard 207CM

Minimum 207CM

Width

58CM

Weight

62KG

Maximum Loading weight

300KG

Wheels Diameter

150mm

Warranty

2 years

- Work pressure: 14MPa
- Input voltage: 36VDC
- Solenoid Valve Voltage: 36VDC
- Motor power: 1440W
- Hydraulic oil medium: CHF 11S
- Power unit operating temperature: -34.4C° to 60C°
- Input power time: ≤2 hours
- Working 120 times without loading
- Working 100 times with loading
